Clover Station

All-in-one point of sale and payments system

With built-in capabilities that help speed up transactions, simplify daily tasks, and enable the latest payment acceptance, this all-in-one system helps lighten your load.

Unbeatable value.

All-in-one system

Run your business and accept payments all from one point of sale and payments system

Powerful Tools

Enjoy faster transactions with a state of the art processor, and manage your business easier with robust software and a wide variety of apps

Ultimate Flexibility

Works seamlessly with Clover devices and peripherals to support business transactions at the counter, in line or on the go

Multi-layered protection

Integrated EMV chip and signature and fingerprint sensor for employee login adds additional security to protect you and customers

Clover Register Software Plan: Wide Range of Included apps

***Register**

The center of your Clover activities including taking orders and payments.

Tables

Manage tables, servers, orders grouped by guest and more. Full service restaurants should start all activities here.

Bar Tab

Specifically for businesses that run credit card authorizations whenever a tab is opened.
